## Activities and Outings Skill Level Rating Codes

The Angeles Chapter Safety Committee has established the following classifications for all chapter-sponsored outings to differentiate the levels of skill required of participants and event leaders. Classifications do not relate to outing strenuousness.

- C** Events conducted by a non-Sierra Club entity (e.g., concessionaire).
- O** Uncomplicated outings such as city walks, bike rides, trail hikes, backpacking. May involve simple off-trail hiking not requiring navigation skills. Climbing level: *Class 1 terrain*.
- I** Outings that involve cross-country travel where navigation is necessary. Rougher ground than **O** outings may be traversed, and the use of hands for balance may be necessary. Includes outings that have snow travel or skiing on easy terrain. Climbing level: *Class 2 terrain*.
- M** Moderate-level climbing: *Class 3 terrain*. On rock, the hands are used for climbing. Some participants may want a safety belay. On snow, safety dictates the use of ice axes and the ability to self-arrest.
- E** More exposed than **M** outings. Climbing on *Class 4 terrain*. Rock climbs will use a rope for all in the party. On snow, steeper terrain than **M** outings is permissible, and safety dictates the use of crampons.
- T** Technical outings requiring specialized skills as identified in the sponsoring group's safety policy.

### Will Thrall Peak (7,845') & Pleasant View Ridge (7,983') - Hiking the Pleasant View Ridge Wilderness

#### *Angeles Chp Wilderness Trainin Outing*

O2: Celebrate Autumn with this epic trek in the San Gabriel Mountains to a couple of the most rugged, challenging, and remote peaks in the area. Usually done as an absolutely epic day hike, we'll extend it this time by back-packing down into the wilderness the afternoon prior and setting up camp beneath the pines to enjoy a gorgeous night beneath the stars. A strenuous day follows, but your effort and perseverance will be returned in kind with equal doses of jaw-dropping beauty, peaceful solitude, and a profound connection with the seemingly-untouched wilderness of the high country. We'll start at Buckhorn Campground (near Waterman Mtn), where we enter the Pleasant View Ridge Wilderness, then head down the Burkhart Trail about 1.4 miles and make camp on the north side of Cooper Canyon Creek -- a good reliable water source under the canopy of abundant pine and oak, and an excellent spot for a festive Happy Hour. Sunday morning, we'll resume our travel along trail into an increasingly stunning part of the San Gabriel Mountains with plenty of healthy stands of trees that have avoided the wild fires and disease that have plagued so many California forests. We'll hike to Burkhart Saddle and turn west; climbing first to Will Thrall Peak, and then to Pleasant View Ridge via steep use trail and occasionally loose slopes. After enjoying the views up top, we'll return to camp via the same route we came in for a total of about 10.5 miles and 3,200' of gain. Once back at camp we'll pack up and head out. Foul weather or excessive heat cancels. This WTC Outing is co-sponsored by HPS. ### Red Rock Canyon State Park Car Camp

#### *Angeles Chp Natural Science Outing*

I: Join us in exploring the third and most magnificent of the three Red Rock Canyons in California. The Natural Science Section is sponsoring a car camping and day hiking extravaganza to Red Rock Canyon State Park, which features the spectacular red cliffs, spires, and canyons of the Ricardo Formation, made of volcanic and sedimentary rocks deposited between approximately 19 and 6 million years ago. We will camp beneath these cliffs in the Ricardo Campground and hike through the amazing Nightmare Gulch, a canyon so unearthly it has been used to film horror movies. But don't be afraid! The scariest beasts in the park are raptors and your co-leaders, including Jay Schneider, Sharon Moore, and Jim Hagar. The hike is 10.25 miles with just under 1,500-foot elevation gain. This is a moderate hike, mostly off-trail, with the elevation gain spread evenly throughout (no steep sections). We'll be hiking through dry washes with minimal rock scrambling. California Professional Geologist Jay Schneider will describe the processes that made this canyon so incredible. See ancient lava flows up close, and the remarkable geologic features that wind and rain have created since their formation. Short hikes and a tour through the park's visitor center on Sunday morning. This trip fulfills the Environmental Awareness requirement for prospective I-rated leaders. Space is limited to 24 participants including the co-leaders so RSVP required. Carpool with one of the leaders early on Friday or form carpools to arrive later on Friday. Cost of trip is \$7 for Sierra Club members, \$10 for non-members, payable to leaders upon arriving at the park. Signup Instructions: To reserve a spot on the trip, please send name, address, phone number, and email address to Jay Schneider at rntntnj@aol.com Please indicate whether you are willing to drive and how many people you can fit in your vehicle (remember they will be bringing supplies and equipment for a two-night camping trip). Also indicate what time on Friday you anticipate arriving at the park.
